For: METHOD AND MECHANISM FOR SUPERPOSITIONING STATE
VECTORS IN A SEMANTIC ABSTRACT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

INTERVIEW SUMMARY

On April 24, 2007, the undersigned held a telephone interview with Examiner Opsasnick. Claims 7, 9-12 and 20 were discussed.

The Examiner indicated that the previously presented amendments did not render claims 7, 9-12 and 20 as statutory subject matter under 35 U.S.C. § 101. After some discussion, the undersigned and the Examiner agreed to an amendment that the Examiner believed would render the claims patentable under 35 U.S.C. § 101.

The Examiner also indicated that there was a concern that the specification did not support the Beauregard claims. The Applicant proposed amending the specification to add descriptive support.

The undersigned and the applicant agreed that the Examiner would amend the application in an Examiner's Amendment.

Customer No. 45842

Respectfully submitted,
MARGER JOHNSON & McCOLLOM, P.C.
